COMMENTARIES

EDITORIALS

BOOK REVIEWS

INFORMATION FOR AUTHORS

RADIODIAGNOSIS

Techniques/Subspecialties

Radiography

Detection or decision errors? Missed lung cancer from the posteroanterior chest radiograph (Short communication), 231
Diagnosing purely ligamentous injuries of the cervical spine in the unconscious trauma patient (Commentary), 276
Reproducibility of mammographic classifications for non-palpable suspect lesions with microcalcifications, 312
Interpretation of trauma radiographs by radiographers and nurses in the UK: a comparative study, 657

Ultrasound

Ultrasound of the extracranial vertebral artery (Review), 15
Intrapancreatic accessory spleen: diagnosis using contrast enhanced ultrasound (Case report), 148
Hydrocele of the canal of Nuck in a girl: ultrasound and MR appearance (Case report), 243
Prosthetic mesh used for inguinal and ventral hernia repair: normal appearances and complications in ultrasound and CT (Pictorial review), 261
A novel application of ultrasound contrast: demonstration of splenic arterial bleeding (Case report), 333
Vascular lesions of parotid gland in adult patients: diagnosis with high-resolution ultrasound and MRI (Case report), 600
Use of colour duplex ultrasound to diagnose giant cell arteritis in a case of visual loss of uncertain aetiology (Case report), 607
Transpleural ultrasound diagnosis of a pulmonary arteriovenous malformation (Case report), 620
Pseudoaneurysm of the breast: case study and review of the literature (Case report), 694
Malignant mesothelioma of the tunica vaginalis testis (Case report), 780

Isolated torsion of the hydrosalpinx: a rare presentation (Case report), 784
Focal bowel wall changes detected with colour Doppler ultrasound: diagnostic value in acute non-diverticular diseases of the colon, 917

MRI

Ultrashort echo time (UTE) MRI of the spine in the thalassaemia, 104
MRI of neck nodes in non-Hodgkin's lymphoma of the head and neck, 111
Hydrocele of the canal of Nuck in a girl: ultrasound and MR appearance (Case report), 243
Diagnosing purely ligamentous injuries of the cervical spine in the unconscious trauma patient (Commentary), 276
The development and application of functional nuclear magnetic resonance to *in vivo* therapeutic anticancer research (Review), 296
Infectious meningitis: prospective evaluation with magnetization transfer MRI, 387
Appearance of uterine cervical lymphoma on MRI: a case report and review of the literature (Case report), 512
MRI features of foot and ankle injuries in ballet dancers (Pictorial review), 532
Vascular lesions of parotid gland in adult patients: diagnosis with high-resolution ultrasound and MRI (Case report), 600
Contrast-enhanced MRI of the menisci of the knee using ultrashort echo time (UTE) pulse sequences: imaging of the red and white zones, 641
Spontaneous regression of supratentorial intracerebral Langerhans' cell histiocytosis (Case report), 685
Haemorrhage within an intramedullary astrocytoma presenting with a mild clinical course and a fluid–fluid level on MRI (Case report), 691
Diffusion-weighted MRI in the evaluation of renal lesions: preliminary results, 851
Spontaneous spinal epidural haematoma during pregnancy: case report and review of the literature (Case report), 881
Resolution of symptomatic epidural fibrosis following treatment with combined pentoxifylline–tocopherol (Case report), 885
Demyelination in the brain as a paraneoplastic disorder (Correspondence), 899
Kidney in paroxysmal nocturnal haemoglobinuria: MRI findings (Case report), 953
Angiography-induced closure of perimedullary spinal arteriovenous fistula (Case report), 969
Pineapple juice as a negative oral contrast agent in magnetic resonance cholangiopancreatography: a preliminary evaluation, 991
Magnetic resonance cholangiography in children (Pictorial review), 1059
Usefulness of MR imaging in detecting occult breast cancer associated with Paget's disease of the nipple–areolar complex (Short communication), 1036

CT

Technetium-99m sestamibi scintigraphy and helical CT together in patients with primary hyperparathyroidism: a prospective clinical study, 100
Anticipation and planning for anaesthesia provision within MR units in the UK, 216
Prosthetic mesh used for inguinal and ventral hernia repair: normal appearances and complications in ultrasound and CT (Pictorial review), 261
Diagnosing purely ligamentous injuries of the cervical spine in the unconscious trauma patient (Commentary), 276
Whole-body CT health screening (Commentary), 370
Pulmonary haemangiosarcoma with main pulmonary artery thrombosis imitating subacute pulmonary embolism with infarction (Case report), 623
A patient with prolonged fever after pharyngotonsillitis (Case of the month), 627
Cytomegalovirus pneumonia after bone marrow transplantation: high resolution CT findings, 724
Quantitative measurement of hepatic portal perfusion by multidetector row CT with compensation for respiratory misregistration, 728
Author's reply (Correspondence), 803
Baked beans on CT (Correspondence), 803
Effect of iodine concentration of contrast media on contrast enhancement in multislice CT of the pancreas, 821
Resolution of symptomatic epidural fibrosis following treatment with combined pentoxifylline–tocopherol (Case report), 885
Dysplastic nodules in liver cirrhosis: detection with triple-phase helical dynamic CT, 911
Coexistence of lung cancer and tuberculoma in the same lesion: demonstration by high resolution and contrast-enhanced dynamic CT (Case report), 959
Intracranial laterally based supratentorial neurenteric cyst (Case report), 963
Intrahepatic portosystemic venous shunt passing through the left inferior phrenic vein and draining into the left renal vein (Case report), 966
The CT halo: a new sign in active pulmonary sarcoidosis (Case report), 1042

Interventional radiology

Spontaneous rupture of a true uterine artery aneurysm: a cause of retroperitoneal haematoma (Case report), 157
Benign complications of expendable metal stents used in the palliation of oesophageal carcinoma: two case reports (Case report), 245
Factors affecting clinical outcome of patients who undergo transcatheter arterial embolisation in splenic injury, 308
Adenosquamous carcinoma of the liver successfully treated with repeated transcatheter arterial infusion chemotherapy (TACE) with degradable starch microspheres (Case report), 516
Endovascular management of multiple arterial aneurysms in Behcet's disease (Case report), 615
Pre-operative arterial embolisation of a uterine rhabdomyosarcoma in a 14-year-old girl (Case report), 701
Liver ablation therapy (Review), 713
Cervical oesophageal stent placement via a retrograde transgastric route (Case report), 787
Routine transradial access for conventional cerebral angiography: a single operator's experience of its feasibility and safety, 831
Lumbar artery bleeding as a complication of percutaneous nephrostomy in a patient with coagulopathy (Case report), 878
The impact of the International Subarachnoid Aneurysm Trial on Radiology (Commentary), 903
The role of infrapopliteal angioplasty, 1007

Angiography

Assessment of a technique for 2D–3D registration of cerebral intra-arterial angiography, 123
Spontaneous rupture of a true uterine artery aneurysm: a cause of retroperitoneal haematoma (Case report), 157
Pre-operative arterial embolisation of a uterine rhabdomyosarcoma in a 14-year-old girl (Case report), 701

Angiography-induced closure of perimedullary spinal arteriovenous fistula (Case report), 969

Nuclear medicine

Technetium-99m sestamibi scintigraphy and helical CT together in patients with primary hyperparathyroidism: a prospective clinical study, 100
Thrombophlebitis diagnosed on indium-111 labelled white cell scan (Case report), 679
Selective spleen scintigraphy in the diagnosis of polysplenia syndrome (Case report), 698
Author's reply (Correspondence), 709
Effective dose in sentinal lymph node imaging (Correspondence), 709
A patient with back pain and unusual appearances on bone scintigraphy (Case of the month), 801
Extraosseous uptake of metastatic lymph nodes of ureteral cancer on $^{99}Tc^{m}$ hydroxymethylene diphosphonate bone scintigraphy (Short communication), 869
Reverse echelon node and a lymphatic ectasia in the same patient during breast lymphoscintigraphy: the importance of injection and imaging technique (Case report), 1053

Oncology

MRI of neck nodes in non-Hodgkin's lymphoma of the head and neck, 111
The development and application of functional nuclear magnetic resonance to *in vivo* therapeutic anticancer research (Review), 296
Liver ablation therapy (Review), 713
In search of a primary tumour presenting with extracervical metastases: the diagnostic performance of FDG-PET, 1000

Breast

An evaluation of the impact of computer-based prompts on screen readers' interpretation of mammograms, 21
Reproducibility of mammographic classifications for non-palpable suspect lesions with microcalcifications, 312
Variation of the sensitometric characteristics of seven mammographic films with processing conditions, 666
Pseudoaneurysm of the breast: case study and review of the literature (Case report), 694
Author's reply (Correspondence), 709
Effective dose in sentinal lymph node imaging (Correspondence), 709
Usefulness of MR imaging in detecting occult breast cancer associated with Paget's disease of the nipple–areolar complex (Short communication), 1036

Statistics

An evaluation of the impact of computer-based prompts on screen readers' interpretation of mammograms, 21

PET

Tumour vaccine associated lymphadenopathy and false positive positron emission tomography scan changes (Case report), 74
False positive fluorine-18 fluorodeoxy-D-glucose positron emission tomography finding caused by osteoradionecrosis in a nasopharyngeal carcinoma patient (Case report), 257
Internal and external jugular vein thrombosis with marked accumulation of FDG (Case report), 888
In search of a primary tumour presenting with extracervical metastases: the diagnostic performance of FDG-PET, 1000

Genitourinary tract

General urinary tract

Ultrasound measured renal length versus low dose CT volume in predicting single kidney glomerular filtration rate, 759
Renal angiomyolipoma with calcification: CT-pathology correlation (Case report), 782
Diffusion-weighted MRI in the evaluation of renal lesions: preliminary results, 851
Kidney in paroxysmal nocturnal haemoglobinuria: MRI findings (Case report), 953
Giant renal capsular leiomyoma: study of two cases (Case report), 957

Paediatric urinary tract

Cellular congenital mesoblastic nephroma with contralateral medullary nephrocalcinosis (Case report), 436

Gynaecology

Spontaneous rupture of a true uterine artery aneurysm: a cause of retroperitoneal haematoma (Case report), 157
Female genital tuberculosis: hysterosalpingographic appearances (Pictorial review), 164
A woman with a pelvic mass and pulmonary nodes (Case of the month), 459
Pre-operative arterial embolisation of a uterine rhabdomyosarcoma in a 14-year-old girl (Case report), 701
Isolated torsion of the hydrosalpinx: a rare presentation (Case report), 784

Obstetrics

Spontaneous spinal epidural haematoma during pregnancy: case report and review of the literature (Case report), 881

Male genital system

Primary rhabdomyosarcoma of the seminal vesicle (Case report), 159
Castleman's disease presenting as an adnexal mass: ultrasound, CT and MRI features (Case report), 161
Ultrasound diagnosis of paratesticular rhabdomyosarcoma (Case report), 250
MRI in the diagnosis of testicular Leydig cell tumour (Case report), 521
Malignant mesothelioma of the tunica vaginalis testis (Case report), 780
Phentolamine re-dosing during penile dynamic colour Doppler ultrasound: a practical method to abolish a false diagnosis of venous leakage in patients with erectile dysfunction, 922

Interventional procedures

Pre-operative arterial embolisation of a uterine rhabdomyosarcoma in a 14-year-old girl (Case report), 701

Central nervous system

Thallium-201 single photon emission computed tomography in the detection of retroperitoneal schwannoma (Case report), 57
Monophasic, solitary tumefactive demyelinating lesion: neuroimaging features and neuropathological diagnosis (Case report), 153
Exclusion of brain lesions: is MR contrast medium required after a negative fluid-attenuated inversion recovery sequence?, 183
Are T_1 weighted images helpful in MRI of cervicalradiculopathy?, 189

Multiple cerebral enhancing lesions in an acutely ill child (Case of the month), 267
A case of multiple extra-axial masses (Case of the month), 363
Infectious meningitis: prospective evaluation with magnetization transfer MRI, 387
Delayed post-contrast fluid-attenuated inversion recovery image for depicting meningeal carcinomatosis (Case report), 528
Re-circulation artefact at the carotid bulb can be differentiated from true stenosis, 551
MRI of spinal intradural arachnoid cyst formation following tuberculous meningitis (Case report), 681
Spontaneous regression of supratentorial intracerebral Langerhans' cell histiocytosis (Case report), 685
Haemorrhage within an intramedullary astrocytoma presenting with a mild clinical course and a fluid–fluid level on MRI (Case report), 691
Spontaneous spinal epidural haematoma during pregnancy: case report and review of the literature (Case report), 881
A pathognomonic MRI finding in a patient with ataxia and hearing loss (Case of the month), 897
Demyelination in the brain as a paraneoplastic disorder (Correspondence), 899
The impact of the International Subarachnoid Aneurysm Trial on Radiology (Commentary), 903
Intracranial laterally based supratentorial neurenteric cyst (Case report), 963
Angiography-induced closure of perimedullary spinal arteriovenous fistula (Case report), 969
Neuroradiological findings of intracranial schwannomas not arising from the stems of cranial nerves, 1016

Head and neck

MRI of neck nodes in non-Hodgkin's lymphoma of the head and neck, 111

Orbits

Orbital emphysema: an unusual complication of balloon dacryocystoplasty (Case report), 1057

Dental

Reference level for patient dose in dental skull lateral teleradiography, 735
Lipiodol UF retention in dental sialography (Case report), 1040

Sinuses

False positive fluorine-18 fluorodeoxy-D-glucose positron emission tomography finding caused by osteoradionecrosis in a nasopharyngeal carcinoma patient (Case report), 257

Ear, nose and throat

Castleman's disease of the neck: a description of four cases on contrast-enhanced CT scan (Case report), 253
An unusual cause of neck pain (Case of the month), 539
A patient with prolonged fever after pharyngotonsillitis (Case of the month), 627
Extraskeletal Ewing's sarcoma of the parapharyngeal space (Case report), 1046

Respiratory tract

Peripheral intrapulmonary lipoma: a rare lung neoplasm (Case report), 60
Unusual uptake of radioiodine in the chest in a patient of thyroid carcinoma (Case report), 63
Comparison of new clinical and scintigraphic algorithms for the diagnosis of pulmonary embolism, 372
Concomitant pulmonary and mediastinal sclerosing haemangiomas (Case report), 438
Small pulmonary arteriovenous fistulae revealed by scintigraphy during selective injection of $^{99}Tc^{m}$-macroaggregated albumin (Case report), 445
Chest wall tuberculosis: a review of CT appearances (Pictorial review), 449
Transpleural ultrasound diagnosis of a pulmonary arteriovenous malformation (Case report), 620
Pulmonary haemangiosarcoma with main pulmonary artery thrombosis imitating subacute pulmonary embolism with infarction (Case report), 623
Cytomegalovirus pneumonia after bone marrow transplantation: high resolution CT findings, 724
Coexistence of lung cancer and tuberculoma in the same lesion: demonstration by high resolution and contrast-enhanced dynamic CT (Case report), 959
Pulmonary alveolar microlithiasis presenting with crazy-paving pattern on high resolution CT (Case report), 974
The CT halo: a new sign in active pulmonary sarcoidosis (Case report), 1042

Cardiovascular system

Congenital heart disease

MRI evaluation of congenital coronary artery fistulae (Case report), 508

Great vessels

Exclusion of brain lesions: is MR contrast medium required after a negative fluid-attenuated inversion recovery sequence?, 183
Are T_1 weighted images helpful in MRI of cervical radiculopathy?, 189
Coarctation of the aorta associated with aneurysm of the left subclavian artery (Case report), 335
Partial thrombosis of an idiopathic azygos vein aneurysm (Case report), 342
Coronary subclavian steal syndrome: non-invasive imaging and percutaneous repair (Case report), 441
Pulmonary haemangiosarcoma with main pulmonary artery thrombosis imitating subacute pulmonary embolism with infarction (Case report), 623

Peripheral arterial system

Ultrasound of the extracranial vertebral artery (Review), 15
Factors affecting clinical outcome of patients who undergo transcatheter arterial embolisation in splenic injury, 308
The role of infrapopliteal angioplasty, 1007

Peripheral venous system

Thrombophlebitis diagnosed on indium-111 labelled white cell scan (Case report), 679

Lymphatic system

Extensive peritoneal and omental lymphomatosis with raised CA 125 mimicking carcinomatosis: CT and intraoperative findings (Case report), 71

Skeletal

Congenital

Hereditary intraosseous vascular malformation of the craniofacial region: imaging findings, 197

Trauma

Diagnosing purely ligamentous injuries of the cervical spine in the unconscious trauma patient (Commentary), 276

MRI features of foot and ankle injuries in ballet dancers (Pictorial review), 532

Interpretation of trauma radiographs by radiographers and nurses in the UK: a comparative study, 657

Tumour

$^{99}Tc^{m}$ (V)DMSA scintigraphy in skeletal metastases and superscans arising from various malignancies: diagnosis, treatment monitoring and therapeutic implications (Pictorial review), 347

Haemipoetic

Polycythaemia vera presenting as massive splenic infarction and liquefaction (Case report), 876

Infection

Echinococcosis of the rib with epidural extension: a rare cause of paraplegia (Case report), 338

Spine

Ultrashort echo time (UTE) MRI of the spine in the thalassaemia, 104

Resolution of symptomatic epidural fibrosis following treatment with combined pentoxifylline–tocopherol (Case report), 885

Sacral insufficiency fracture (Pictorial review), 891

Joints

Contrast-enhanced MRI of the menisci of the knee using ultrashort echo time (UTE) pulse sequences: imaging of the red and white zones, 641

Bone densitometry

Differences in proximal femur geometry distinguish vertebral from femoral neck fractures in osteoporotic women, 219

Normative data for ultrasound measurement of the calcaneus within different female ethnic groups, 740

Digestive system

Salivary glands

An unusual case of intraluminal gastric radio-opacities (Case of the month), 171

Vascular lesions of parotid gland in adult patients: diagnosis with high-resolution ultrasound and MRI (Case report), 600

Colon and rectum

Appearance of a Type B duplex appendix on barium enema (Case report), 248

The development and application of functional nuclear magnetic resonance to *in vivo* therapeutic anticancer research (Review), 296

Large bowel obstruction caused by sclerosing peritonitis: contrast-enhanced CT findings (Case report), 344

Localized abdominal pain (Case of the month), 707

Pitfalls in the CT diagnosis of appendicitis (Pictorial review), 792

Focal bowel wall changes detected with colour Doppler ultrasound: diagnostic value in acute non-diverticular diseases of the colon, 917

Biliary

The development and application of functional nuclear magnetic resonance to *in vivo* therapeutic anticancer research (Review), 296

Pineapple juice as a negative oral contrast agent in magnetic resonance cholangiopancreatography: a preliminary evaluation, 991

Liver

Focal sparing of fatty liver in segment II associated with aberrant left gastric vein (Case report), 150

Non-pulsatile hepatic and portal vein waveforms in patients with liver cirrhosis: concordant and discordant relationships, 547

Systematic review of radiological imaging for hepatocellular carcinoma in cirrhotic patients, 633

Liver ablation therapy (Review), 713

Quantitative measurement of hepatic portal perfusion by multidetector row CT with compensation for respiratory misregistration, 728

Dysplastic nodules in liver cirrhosis: detection with triple-phase helical dynamic CT, 911

Intrahepatic portosystemic venous shunt passing through the left inferior phrenic vein and draining into the left renal vein (Case report), 966

Pancreas

Effect of iodine concentration of contrast media on contrast enhancement in multislice CT of the pancreas, 821

Pineapple juice as a negative oral contrast agent in magnetic resonance cholangiopancreatography: a preliminary evaluation, 991

Soft tissues

A leaking breast prosthesis presenting as an abdominal mass (Case report), 790

Endocrine system

Drug interference with MIBG uptake in a patient with metastatic paraganglioma (Case report), 525

Parathyroid

Technetium-99m sestamibi scintigraphy and helical CT together in patients with primary hyperparathyroidism: a prospective clinical study, 100

Mediastinum

Progressively enlarging paracardial lipoma in a child (Case report), 68

Paracardiac pleural Castleman disease: radiographic and MR findings (Case report), 432

Clinical audit and management

Whole-body CT health screening (Commentary), 370

Training improves medical student performance in image interpretation (Short communication), 775

Radiological history

The British Journal of Radiology and the Second World War: a radiologist's retrospective (General interest), 499

PHYSICS AND TECHNOLOGY

Diagnostic radiology physics

Conventional

Evaluation of the use of six diagnostic X-ray spectra computer codes, 224

Comprehensive analysis of the spectrometric determination of voltage applied to X-ray tubes in the radiography and mammography energy ranges using a silicon pin photodiode, 395

A phantom approach to find the optimal technical parameters for plane chest radiography, 648

Exposure variations under error conditions in automatic exposure controlled film–screen projection radiography, 931

Technical note: a comparison of antiscatter grids for digital radiography (Short communication), 950

CT

Effect of multislice scanners on patient dose from routine CT examinations in East Anglia, 472

16-detector multislice CT: dosimetry estimation by TLD measurement compared with Monte Carlo simulation, 662

Image quality and dose evaluation in spiral chest CT examinations of patients with lung carcinoma, 839

Mammography

Towards *in vivo* TLD dosimetry in mammography (Short communication), 426

Variation of the sensitometric characteristics of seven mammographic films with processing conditions, 666

Image processing/perception/quality/image analysis

Quality control of a laser camera with the SMPTE test pattern: optical density variations with printing format and frame position (Short communication), 52

Barium enema: use of increased copper filtration to optimize dose and image quality, 116

Assessment of a technique for 2D–3D registration of cerebral intra-arterial angiography, 123

Influence of the characteristic curve on the clinical image quality of lumbar spine and chest radiographs, 204

Detection or decision errors? Missed lung cancer from the posteroanterior chest radiograph (Short communication), 231

The addition of computer simulated noise to investigate radiation dose and image quality in images with spatial correlation of statistical noise: an example application to X-ray CT of the brain, 323

Optimization of radiographic parameters for paediatric cardiac angiography, 479

Fused deposition models from CT scans (Short communication), 504

Comparison of a conventional and a flat-panel digital system in interventional cardiology procedures, 562

Application of low dose rate pulsed fluoroscopy in cardiac pacing and electrophysiology: patient dose and image quality implications (Short communication), 597

A phantom approach to find the optimal technical parameters for plane chest radiography, 648

Optimization of variable temporal averaging in digital fluoroscopy (Short communication), 675

Threshold contrast detail detectability curves for fluoroscopy and digital acquisition using modern image intensifier systems, 751

Ultrasound measured renal length versus low dose CT volume in predicting single kidney glomerular filtration rate, 759

Image quality and dose evaluation in spiral chest CT examinations of patients with lung carcinoma, 839

PACS/image handling/3D

Assessment of monitor conditions for the display of radiological diagnostic images and ambient lighting, 465

QA/protection

A study of scatter in diagnostic X-ray rooms, 28

Evaluation of the use of six diagnostic X-ray spectra computer codes, 224

Comparison of effective doses obtained from dose–area product and air kerma measurements in interventional radiology, 315

A uniform approach to setting and using DRLs? (Editorial), 369

Comprehensive analysis of the spectrometric determination of voltage applied to X-ray tubes in the radiography and mammography energy ranges using a silicon pin photodiode, 395

Considerations on the measurement of the practical peak voltage in diagnostic radiology, 745

Dose calculation/measurement/instrumentation

A study of scatter in diagnostic X-ray rooms, 28

Barium enema: use of increased copper filtration to optimize dose and image quality, 116

Comparison of effective doses obtained from dose–area product and air kerma measurements in interventional radiology, 315

The addition of computer simulated noise to investigate radiation dose and image quality in images with spatial correlation of statistical noise: an example application to X-ray CT of the brain, 323

A uniform approach to setting and using DRLs? (Editorial), 369

Towards *in vivo* TLD dosimetry in mammography (Short communication), 426

Effect of multislice scanners on patient dose from routine CT examinations in East Anglia, 472

Optimization of radiographic parameters for paediatric cardiac angiography, 479

Comparison of a conventional and a flat-panel digital system in interventional cardiology procedures, 562

Application of low dose rate pulsed fluoroscopy in cardiac pacing and electrophysiology: patient dose and image quality implications (Short communication), 597

A phantom approach to find the optimal technical parameters for plane chest radiography, 648

Patient and operator dose during fluoroscopic examination of swallow mechanism, 654

16-detector multislice CT: dosimetry estimation by TLD measurement compared with Monte Carlo simulation, 662

Reference level for patient dose in dental skull lateral teleradiography, 735

Image quality and dose evaluation in spiral chest CT examinations of patients with lung carcinoma, 839

Patient dose optimization in plain radiography based on standard exposure factors, 858

A review of factors affecting patient doses for barium enemas and meals, 864

Suitability of resin coated photographic paper for skin dose measurement during fluoroscopically guided X-ray procedures (Short communication), 871
Evaluation of work practices and radiation dose during adult micturating cystourethrography examinations performed using a digital imaging system, 927
Exposure variations under error conditions in automatic exposure controlled film–screen projection radiography, 931
Radiological parameters and radiation doses of patients undergoing abdomen, pelvis and lumbar spine X-ray examinations in three Nigerian hospitals, 934
Patient radiation doses during invasive cardiac procedures categorised by clinical code, 1022

Radiotherapy physics

Photon therapy

Equivalent diameters of elliptical fields, 941

Conformal therapy/multileaf/portal imaging

Delineation of brain metastases on CT images for planning radiosurgery: concerns regarding accuracy, 39
Development of a simultaneous boost IMRT class solution for a hypofractionated prostate cancer protocol, 377
Assessment of effective dose from concomitant exposures required in verification of the target volume in radio therapy, 557
Inverse planning in three-dimensional conformal and intensity-modulated radiotherapy of mid-thoracic oesophageal cancer, 568
Second cancers following radiotherapy: a suggested common dosimetry framework for therapeutic and concomitant exposures (Commentary), 986

Radiotherapy imaging/simulation

Delineation of brain metastases on CT images for planning radiosurgery: concerns regarding accuracy, 39
Quantification of tumour response to radiotherapy, 405
Second cancers following radiotherapy: a suggested common dosimetry framework for therapeutic and concomitant exposures (Commentary), 986

Treatment planning/dose computation

Development of a simultaneous boost IMRT class solution for a hypofractionated prostate cancer protocol, 377
Comparison of a lung fitting algorithm with CT data for tangential fields in radiotherapy of the breast, 414
Inverse planning in three-dimensional conformal and intensity-modulated radiotherapy of mid-thoracic oesophageal cancer, 568
Implementation of a spreadsheet program for calculation of equivalent square field size (Short communication), 672

QA/protection

Experiences of a proactive IR(ME)R inspection in radiotherapy, 329
Assessment of effective dose from concomitant exposures required in verification of the target volume in radio therapy, 557

Nuclear medicine

Radioisotope production/radiopharmaceuticals

Drug interference with MIBG uptake in a patient with metastatic paraganglioma (Case report), 525

Equipment/gamma camera/PET/SPECT

$^{99}Tc^{m}$(V)DMSA scintigraphy in skeletal metastases and superscans arising from various malignancies: diagnosis, treatment monitoring and therapeutic implications (Pictorial review), 347
PET technology: current trends and future developments (Commentary), 906

Dosimetry/calibration/instrumentation

Author's reply (Correspondence), 709
Effective dose in sentinal lymph node imaging (Correspondence), 709

Ultrasound

Instrumentation/QA

Two- and three-dimensional ultrasound in the development of a needle-free injection system (Short communication), 236
Normative data for ultrasound measurement of the calcaneus within different female ethnic groups, 740

Magnetic resonance

Instrumentation/imaging

Anticipation and planning for anaesthesia provision within MR units in the UK, 216
Diffusion-weighted MRI in the evaluation of renal lesions: preliminary results, 851

Spectroscopy

Demyelination in the brain as a paraneoplastic disorder (Correspondence), 899

RADIOTHERAPY AND ONCOLOGY

Clinical systems

Head and neck

Barium paste: useful for primary tumour localization in oral cancer (Short communication), 143
Clinical use of intensity-modulated radiotherapy: part I (Review), 88
False positive fluorine-18 fluorodeoxy-D-glucose positron emission tomography finding caused by osteoradionecrosis in a nasopharyngeal carcinoma patient (Case report), 257
Quantification of tumour response to radiotherapy, 405
Radical radiotherapy for early laryngeal cancer in a patient with human immunodeficiency virus: no evidence of increased toxicity (Case report), 519
Residual or recurrent head and neck cancer presenting with nerve root compression affecting the upper limbs (Case report), 688

Gynaecology

Gynaecological brachytherapy: a 1-day seminar organized by the British Institute of Radiology Brachytherapy Working Party (Commentary), 1
Clinical use of intensity-modulated radiotherapy: part II (Review), 177
Appearance of uterine cervical lymphoma on MRI: a case report and review of the literature (Case report), 512
Adding concurrent low dose continous infusion of cisplatin to radiotherpay in locally advanced cervical carcinoma: a prospective randomized pilot study, 581

Genitourinary

Sparing of the penile bulb and proximal penile structures with intensity-modulated radiation therapy for prostate cancer, 129

Clinical use of intensity-modulated radiotherapy: part II (Review), 177

Extraosseous uptake of metastatic lymph nodes of ureteral cancer on $^{99}Tc^{m}$ hydroxymethylene diphosphonate bone scintigraphy (Short communication), 869

Gastrointestinal

Clinical use of intensity-modulated radiotherapy: part II (Review), 177

Primary melanoma of the oesophagus well palliated by radiotherapy (Case report), 1050

Lung

Post-operative adjuvant thoracic radiotherapy for patients with completely resected non-small cell lung cancer with nodal involvement: outcome and prognostic factors, 43

Clinical use of intensity-modulated radiotherapy: part I (Review), 88

A feasibility study on the prediction of tumour location in the lung from skin motion, 588

Radical treatment of non-small cell lung cancer (Commentary), 807

Breast

Irradiation of the heart during tangential breast treatment: a study within the START trial, 137

Clinical use of intensity-modulated radiotherapy: part II (Review), 177

Reducing radiotherapy dose in early breast cancer: the concept of conformal intraoperative bracytherapy (Commentary), 279

Breast cancer: improving outcome following adjuvant radiotherapy (Review), 811

Usefulness of MR imaging in detecting occult breast cancer associated with Paget's disease of the nipple–areolar complex (Short communication), 1036

Non-Hodgkin's lymphoma

Appearance of uterine cervical lymphoma on MRI: a case report and review of the literature (Case report), 512

Neuro-oncology

Delineation of brain metastases on CT images for planning radiosurgery: concerns regarding accuracy, 39

Clinical use of intensity-modulated radiotherapy: part I (Review), 88

A comparison of conventional, conformal and intensity-modulated coplanar radiotherapy plans for posterior fossa treatment, 768

Neurosarcoidosis: an unusual indication for radiotherapy (Case report), 777

Sarcoma

Pre-operative arterial embolisation of a uterine rhabdomyosarcoma in a 14-year-old girl (Case report), 701

Benign conditions

Aneurysmal bone cyst of the sternum: a case report of successful treatment with radiotherapy (Case report), 610

Clinical radiotherapy

External beam

Post-operative adjuvant thoracic radiotherapy for patients with completely resected non-small cell lung cancer with nodal involvement: outcome and prognostic factors, 43

Barium paste: useful for primary tumour localization in oral cancer (Short communication), 143

Aneurysmal bone cyst of the sternum: a case report of successful treatment with radiotherapy (Case report), 610

Residual or recurrent head and neck cancer presenting with nerve root compression affecting the upper limbs (Case report), 688

Neurosarcoidosis: an unusual indication for radiotherapy (Case report), 777

3D treatment planning/normal tissue sparing

Practical experience with intensity-modulated radiotherapy (Review), 3

Sparing of the penile bulb and proximal penile structures with intensity-modulated radiation therapy for prostate cancer, 129

Irradiation of the heart during tangential breast treatment: a study within the START trial, 137

Clinical use of intensity-modulated radiotherapy: part I (Review), 88

Clinical use of intensity-modulated radiotherapy: part II (Review), 177

Is tomotherapy the future of IMRT? (Review), 285

Clinical implementation of dynamic intensity-modulated radiotherapy: radiographers' perspectives, 493

A feasibility study on the prediction of tumour location in the lung from skin motion, 588

A comparison of conventional, conformal and intensity-modulated coplanar radiotherapy plans for posterior fossa treatment, 768

Breast cancer: improving outcome following adjuvant radiotherapy (Review), 811

Conformal therapy/dose escalation

Practical experience with intensity-modulated radiotherapy (Review), 3

Delineation of brain metastases on CT images for planning radiosurgery: concerns regarding accuracy, 39

Is tomotherapy the future of IMRT? (Review), 285

Development of a simultaneous boost IMRT class solution for a hypofractionated prostate cancer protocol, 377

Clinical implementation of dynamic intensity-modulated radiotherapy: radiographers' perspectives, 493

Radical treatment of non-small cell lung cancer (Commentary), 807

Second cancers following radiotherapy: a suggested common dosimetry framework for therapeutic and concomitant exposures (Commentary), 986

Real-time portal imaging

Second cancers following radiotherapy: a suggested common dosimetry framework for therapeutic and concomitant exposures (Commentary), 986

Brachytherapy

Gynaecological brachytherapy: a 1-day seminar organized by the British Institute of Radiology Brachytherapy Working Party (Commentary), 1

Reducing radiotherapy dose in early breast cancer: the concept of conformal intraoperative bracytherapy (Commentary), 279

Palliative radiotherapy

Residual or recurrent head and neck cancer presenting with nerve root compression affecting the upper limbs (Case report), 688

Chemotherapy

Combined chemoradiation

Adding concurrent low dose continous infusion of cisplatin to radiotherpay in locally advanced cervical carcinoma: a prospective randomized pilot study, 581

Radical treatment of non-small cell lung cancer (Commentary), 807

Endocrine therapy

Drug interference with MIBG uptake in a patient with metastatic paraganglioma (Case report), 525

Experimental evidence to support the hypothesis that damage to vascular endothelium plays the primary role in the development of late radiation-induced CNS injury, 488

Novel and combined treatment modalities

Boron neutrom capture therapy

Synthesis of copper octabromotetracarboranylphenylporphyrin for boron neutron capture therapy and its toxicity and biodistribution in tumour-bearing mice, 573

RADIOBIOLOGY

Biological basis of radiological protection

Carcinogenesis

Second cancers following radiotherapy: a suggested common dosimetry framework for therapeutic and concomitant exposures (Commentary), 986

Genetic effects

Therapeutic external irradiation in women of reproductive age: risk estimation of hereditary effects, 847

Deterministic effects

Marked increase in the rate of ocular lens regeneration in the newt, *Cynops pyrrhogaster*, following partial body exposure to low dose X-rays (Short communication), 49

Second cancers following radiotherapy: a suggested common dosimetry framework for therapeutic and concomitant exposures (Commentary), 986

Risk estimates

Is there a benefit in promoting the concept of radiation risk? (Commentary), 545

Therapeutic external irradiation in women of reproductive age: risk estimation of hereditary effects, 847

Second cancer risk, concomitant exposures and IRMER (2000) (Editorial), 983

Second cancers following radiotherapy: a suggested common dosimetry framework for therapeutic and concomitant exposures (Commentary), 986

Occupational and medical exposures

Radiation protection in humans: extending the concept of as low as reasonably achievable (ALARA) from dose to biological damage (Review), 97

Second cancer risk, concomitant exposures and IRMER (2000) (Editorial), 983

Second cancers following radiotherapy: a suggested common dosimetry framework for therapeutic and concomitant exposures (Commentary), 986

Radiobiology as applied to radiotherapy

Second cancers following radiotherapy: a suggested common dosimetry framework for therapeutic and concomitant exposures (Commentary), 986

Normal tissue toxicity

Marked increase in the rate of ocular lens regeneration in the newt, *Cynops pyrrhogaster*, following partial body exposure to low dose X-rays (Short communication), 49

Protectors

Radiation protection in humans: extending the concept of as low as reasonably achievable (ALARA) from dose to biological damage (Review), 97

Radioprotective effect of abana, a polyherbal drug following total body irradiation, 1027

Mathematical models

Dose fractionation/dose rate

Determination of the optimum dose per fraction in fractionated radiotherapy when there is delayed onset of tumour repopulation during treatment, 765

Novel and combined treatment modalities

Hyperthermia

Hepatic bipolar radiofrequency ablation using perfused-cooled electrodes: a comparative study in the ex vivo bovine liver, 944

Boron neutron capture therapy

Synthesis of copper octabromotetracarboranylphenylporphyrin for boron neutron capture therapy and its toxicity and biodistribution in tumour-bearing mice, 573

EDUCATION

A summer trip (Case of the month), 77

Medical imaging and radiation protection for medical students and clinical staff (Editorial), 85

Motes and beams: some observations on an IR(ME)R inspection in radiotherapy (Editorial), 273

Training improves medical student performance in image interpretation (Short communication), 775

GENERAL INTEREST

Geometric uncertainties in radiotherapy (Commentary), 86

Gadolinium: named after Finland's most famous chemist (Short communication), 146

X-ray imaging for palaeontology (General interest), 420

COMMENTARIES

Gynaecological brachytherapy: a 1 day seminar organized by the British Institute of Radiology Brachytherapy Working Party, 1
